Summary

For the past decade I have focused on software quality for all sorts of systems and platforms. Presently I am working as a Professional QA Lead in one of the top most technology company known for its dominance in the mobile phone market. In my position I manage the end-to-end process from test planning, risk analyzing, requirements analyzing, test case creating. I am ISTQB certified professional and very strong in backend API testing, Database validation, Performance Testing and UI Testing-Web/Mobile applications. On technical side I can deal with Python, Selenium, Appium and JMeter. I also create and maintain vital test data, environments and automation scripts. dedicated to providing high-quality, reliable software solutions.

Highlights

- Over 13 years in QA, growing from Junior QA Engineer to Sr. Chief Engineer at Samsung Research Bangladesh.
- Led and mentored QA teams, improving efficiency and driving best practices.
- Built and implemented test automation frameworks using Selenium, Robot Framework, and API testing tools.
- Integrated automated testing into CI/CD pipelines, speeding up releases and reducing manual effort.
- Strong background in database testing with MySQL, and MongoDB.
- ISTQB Certified, currently advancing towards Test Manager certifications.

Education

- **Bachelor's in Computer Science & Engineering (CSE)**
Sonargaon University, Dhaka
- **Diploma in Computer Engineering (CSE)**
Cumilla Polytechnic Institute, Cumilla
- **Secondary Scholl Certificate (SSC)**
Yusuf M.T High School, Cumilla

Certifications

ISTQB Certified Tester – Foundation Level (CTFL)
ISTQB Advanced Level – Test Manager (In Progress)

Experience

Current Position: Sr. Chief Engineer (Quality Assurance)

Duration: 2025 - Present

Samsung R&D Institute Bangladesh, Dhaka

Previous Positions:

- Chief Engineer [2021 - 2025]
- Technical Lead [2019 – 2021]
- Lead Engineer [2017 – 2019]
- Senior Engineer [2015 - 2017]
